# New Leaderboard Feature!

Once configured, ValorBot has the ability to display LIVE custom leaderboards!

A screenshot of a Discord chat interface. At the top, a message from 'ValorBot[Alpha]' is shown with a 'BOT' tag and a timestamp of 'Today at 12:34 PM'. The bot's profile picture is a circular icon with 'VA' and 'LP' in yellow. The message content is a custom leaderboard titled 'TSM Homies Leaderboard'. The leaderboard has two columns: 'Summoner name' and 'Rank'. It lists five players: TSM Bjergsen, TSM sightstone, doublelift, kral BB, and ASTROBOY99. Each player's rank is displayed as a blue icon with a number. The players' names are followed by their rank, a vertical bar, and their LP (League Points) total.
